N REPLY REFER TO:
5720
DON-USMC-2015-008671
7 Apr 15

EMAILED TO: Stephanie.moore@drs.com
DRS Network & Imaging Systems
Ms. Stephanie Moore
13532 North Central Expressway
Dallas TX 75423

SUBJECT: FOIA DON-USMC-2015-008671

Dear Ms. Moore:

This responds to your Freedom of Information Act (FOIA) request of August 25, 2015, which requests a copy of:

1. Kollsman Incorporated's (Elbit Systems of America, LLC) proposal in response to solicitation M67854-14-R-6001, including all related volumes, drawings, technical documents, and other attachments associated with the proposal.
2. Kollsman Incorporated's (Elbit Systems of America, LLC) pre-submission written correspondence to the government in response to solicitation M67854-14-R-6001, including emailed and hard-copy correspondence.
3. Award number M67854-15-D-6001 for the Common Laser Range Finder-Integrated Capability (CLRF-IC), including all delivery orders and attachments

In light of the *MCI Worldcom, Inc. v. GSA* decision, the Department of Justice Office of Information and Privacy has advised the Navy Office of the General Counsel that submitter notification in accordance with Executive Order 12,600 should be made whenever an agency receives a FOIA request for documents that contain potentially confidential information in order to obtain and consider any objections to disclosure. Therefore, in accordance with Presidential Executive Order 12,600, we allowed the submitters to review the requested documents and provide comment.

Pursuant to the aforementioned Executive Order 12,600 request, the submitters provided the Marine Corps Systems Command with proposed redactions pursuant to Exemption 5 U.S.C. § 552(b)(3), 5 U.S.C. § 552(b)(4) and 5 U.S.C. § 552 (b)(6). These submitter redactions are identified in the enclosed documents.

25 Sep 15

Specifically, FOIA Exemption 5 U.S.C. § 552(b)(3) precludes disclosure of an offeror's information if disclosure is prohibited by another statute. It is important to note that the Competition In Contracting Act of 1984 (CICA) and 10 U.S.C. § 2305(g), preclude the release of proposals and information contained within said proposals. In fact, CICA provides that "a proposal in the possession or control of [a military department] may not be made available to any person under section 552 of title 5." *Id.*

FOIA Exemption 5 U.S.C. § 552(b)(4) exempts from disclosure (i) voluntarily submitted commercial or financial information provided that the submitter does not "customarily" disclose the information to the public and provided that disclosure would be likely to interfere with the continued and full availability of the information to the government, or (ii) compelled information likely to cause substantial harm to the competitive position of the person from whom it was obtained and likely to impact on the government's ability to obtain reliable information in the future. See Critical Mass Energy Project v. NRC, 975 F.2d 871, 879-80 (D.C. Cir. 1992), cert. denied, 113 S.Ct. 1579 (1993); National Parks & Conservation Ass'n v. Morton, 498 F.2d 765, 766 (D.C. Cir. 1974); Canadian Commercial Corp. v. Dept. of Air Force, 514 F.3d 37 (D.C. Cir., 2008).

FOIA Exemption 5 U.S.C. § 552(b)(6) exempts disclosure of information that would constitute a clearly unwarranted invasion of personal privacy.

In an effort to minimize further delay we request that you review the redactions and identify any withheld information that you wish to receive. MARCORSYSCOM will then determine whether the release of any requested information is proper under the FOIA and provide any additional releasable information in a "final release" letter. If we do not receive any notification from you, which specifically requests the release of any redacted information by October 15, 2015, this letter will become the final response and we will close this FOIA request.

As of May 12, 2014, three hours of search and review (currently billed at \$44 per hour) has been expended during the processing of your request. Please remit a check or money order, payable to the Treasurer of the United States in the amount of \$132.00 to: COMMANDER, ATTN LAW, MARCORSYSCOM, 2200 LESTER STREET, SUITE 120, QUANTICO VA 22134-5010.

Department of the Navy
Office of the General Counsel
ATTN: FOIA Appeals Office
1000 Navy Pentagon Room 4E635
Washington DC 20350-1000

For consideration, the appeal must be received in that office within 60 days from the postmark of this letter's envelope. Attach a copy of this letter and a statement regarding why you believe an adequate search was not conducted. Both your appeal letter and the envelope should bear the notation "FREEDOM OF INFORMATION ACT APPEAL". Please provide a copy of any such appeal letter to the MARCORSYSCOM address above.

25 Sep 15

Any questions concerning this matter should be directed to Mrs. Bobbie Cave at (703) 432-3934 or bobbie.cave@usmc.mil.

Sincerely,

A handwritten signature in cursive script that reads "Bobbie Cave".A handwritten word in cursive script that reads "for".

LISA L. BAKER
Counsel

SOLICITATION, OFFER AND AWARD				1. THIS CONTRACT IS A RATED ORDER UNDER DPAS (15 CFR 700)		RATING DO-A7		PAGE OF PAGES 1 113

SECTION B INFORMATION**B-1 FIRST ARTICLE TEST (FAT) UNITS**

The Government intends to procure fourteen (14) First Article Test (FAT) Units, which will consist of one (1) each of Contract Line Item Numbers (CLINs) 0005-0025 and 0030, and three (3) each of CLINs 0026-0029.

B-2 INITIAL DELIVERY ORDER (DO)

The Government intends to issue the first Delivery Order (DO) for a quantity of fourteen (14) FAT Units and up to eighty-six (86) Low Rate Initial Production (LRIP) Units based on the specific CLIN quantities listed in B-1 above.

B-3 CONTRACT MINIMUM AND MAXIMUM QUANTITIES

Per the table below, the Contract Minimum for the entire life of the contract is fifty (50) of CLIN 0008 only. There is no Contract Minimum quantity for any other CLIN throughout this contract.

The Contract Maximum Quantities for the entire life of the contract are:

- 1,500 for CLINs X005 through X025 and X030 (e.g. CLIN 0005 + CLIN 1005 + CLIN 2005 + CLIN 3005 + CLIN 4005 will not exceed 1,500 in total)
- 4,500 for CLINs X026 through X029 (e.g. CLIN 0026 + CLIN 1026 + CLIN 2026 + CLIN 3026 + CLIN 4026 will not exceed 4,500 in total)
- eleven (11) for CLIN 1031
- eleven (11) for CLIN 2031

B-4 MAXIMUM TOTAL CONTRACT VALUE

The maximum total contract value to procure the contract maximum quantities listed above

(b) (4)

B-5 MISSING CONTRACT LINE ITEM NUMBERS (CLINs)

Several CLINs listed in the original solicitation were objective requirements for which the contractor did not propose, and therefore, intentionally not included in this contract (i.e. CLINs X009, X013, X014, X028, etc.). Other CLINs initially marked "RESERVED" in the original solicitation were also intentionally removed (i.e. CLINs 0003, 0004, 1001, 2001, 3001, etc.). The removal of these CLIN types allows for CLIN numbering continuity across all five (5) ordering periods (i.e. the Laser Range Finder, Straps/Lens Cover(s) is the same number, CLIN X008, across all five (5) years).

Section C - Descriptions and Specifications

STATEMENT OF WORK

1. Scope. This Statement of Work (SOW) specifies the tasks the Contractor shall perform under this contract in support of the production of the Common Laser Range Finder Integrated Capability (CLRf IC) System. The Contractor is responsible for providing all material, services, and necessary support documentation needed to complete the tasks identified in this SOW.
- 1.1. System Description. The CLRf IC is a handheld, lightweight, man portable, GPS target location device. The principal function of the CLRf IC System is to assist the operator in determining the location of a target or other object of interest by measuring the distance, direction, and vertical angle from the operator to the object. The CLRf IC System shall also provide the capability to export these measurements (in a suitable digital format) through a serial communications port to external digital devices for further processing. The CLRf IC System shall also assist the operator with day and night target detection, recognition, and identification. The CLRf IC System shall be capable of operating in the full range of environments and operational situations where Marines deploy. Objective requirements that assist the user in target location, detection, recognition, and identification, include the CLRf IC System internal capabilities of laser spot imaging of multiple laser wavelengths.
2. Applicable Documents. The following documents will be a part of this SOW as specified. The most recent revision of the referenced document will be used unless otherwise specified. In the event of conflict between the applicable documents and this SOW, this document shall take precedence. This document will not supersede applicable laws and regulations unless a specific exemption has been granted.
- 2.1. Specifications, Standards and Handbooks.

MIL-STD-130N	Identification Marking of U.S. Military Property	- Mike Canon
MIL-STD-882E	Standard Practice for System Safety	Seely
MIL-STD-3018	Parts Management	Hank Steck
MIL-STD-38784A	Standard Practice for Manuals, Technical: General Style and Format Requirements	Bill Seely

PRF-PMM141/CLRF IC	Performance Specification for the CLRF IC

(The Performance Specification can be located as an attachment in Section J.)

3. General Requirements. The Contractor shall perform all tasks required and delineated in this SOW to deliver and prepare associated documentation, provide logistics support, technical support, test support, integration and design support, and training, develop technical manuals, and deliver the CLRF IC in the quantity specified in the contract. The Contractor shall provide all materials, equipment, personnel, and facilities necessary to produce and deliver the types and quantities of deliverables specified by the contract.
- 3.1. Program and Data Management.
 - 3.1.1. Program Management. The Contractor shall prepare and submit a monthly Progress, Status and Management Report to the Government. The Contractor shall maintain an accurate MS Project compatible integrated master schedule of program events and recommended program schedules, including reviews and evaluations, which provide for the earliest delivery of the CLRF IC. The MS Project Schedule shall include all significant events, major tasks, and deliverables from start to the completion of the contract. The MS Project Schedule and subsequent updates shall be submitted with the Integrated Program Management Report. The Contractor shall notify the Government, in writing, of any anticipated or projected work stoppages or delays that will impact schedules.

CDRL A001: Contractor's Progress, Status and Management Report
 CDRL A002: Integrated Program Management Report

- 3.1.2. Data Management. The Contractor shall establish a single, centralized system for management of data required under this contract. The Government reserves the right to review all data associated with and developed for the CLRF IC. Documentation shall be readily available to Government representative(s) during planned visits.
- 3.1.3. Security Requirements. All CLRF IC systems will require a Selective Availability Anti-Spoofing Module (SAASM) Global Positioning System (GPS). The Contractor's facilities and personnel shall have the appropriate clearances and approval to store and use GPS data and equipment required to operate the system. The Contractor shall provide evidence that their host application equipment has been approved per GPU-09-105. The Contractor and/or their subcontractors shall possess a valid COMSEC account number.

This contract will require the Contractor to have a Secret Facility Clearance and will require certain Contractors to obtain and maintain classified access eligibility. The Contractor shall have a valid Secret Facility Clearance prior to classified performance. The prime Contractor and all subcontractors (through the prime Contractor) shall adhere to all aspects of DoD Directive 5220.22-M. All personnel identified to perform on this contract shall maintain compliance with Department of Defense, Department of the Navy, and Marine Corps Information and Personnel Security Policy to include completed background investigations (as required) prior to classified performance. Contractor performance shall be in accordance with a DoD Contract Security Classification Specification (DD Form 254) as an attachment. The Contractor shall notify the Government (written notice) within twenty-four hours of any Contractor personnel added or removed from the contract that have been granted classified access. Classified involvement entails unescorted access into secure spaces and access to Secret materials and/or systems (SIPRNET). There will be Secret products used under this contract.

- 3.1.4. Change in Production Facility Location or Break in Production Line. Should the Contractor change production facility locations after the completion of the Production Readiness Review (PRR) and First Article Test (FAT), the Contractor shall host another PRR in accordance with section 3.2.8 prior to producing any systems at their new facility as well as conduct FAT in accordance with section 3.3.9.1 prior to beginning full rate production at their new facility. The PRR shall be conducted 30 calendar days prior to the production of the first units at their new facility. Should the Contractor have a break in production, not caused by the Government, for greater than 90 calendar days, the Contractor shall conduct another FAT in accordance with section 3.3.9.1.

3.2. Meetings, Formal Reviews, Audits, and Conferences.

- 3.2.1. Contractor Responsibilities. The Contractor shall plan, host, attend, coordinate, support and conduct meetings, formal reviews, conferences, and audits (hereinafter called "reviews"). The reviews shall be conducted at Government and Contractor facilities. All such reviews shall be included in the program schedule and may be held concurrently with the Government's approval. The Contractor shall prepare agendas and conference presentation materials and provide minutes following each review. The Government reserves the right to cancel any review. Action item documentation, assignment of responsibility for completion and due dates shall be determined prior to adjournment of all reviews. A summary of all action items, responsible parties, and estimated completion dates shall be included with the minutes.

CDRL A003: Conference Agenda
 CDRL A004: Conference Minutes
 CDRL A005: Presentation Material

- 3.2.2. Post Award Conference. The Contractor shall host a Post Award Conference (PAC) at the Contractor's facility within 30 calendar days after issuance of the initial Delivery Order. During the PAC, the parties

will review the contract and all stated requirements and testing procedures, clarify any questions, and ensure the parties have a complete understanding of the technical requirements and responsibilities. The Contractor shall present management, key personnel and program implementation processes. The Contractor shall prepare presentation materials providing an overview of all agenda items.

CDRL A003: Conference Agenda-PAC
CDRL A004: Conference Minutes-PAC
CDRL A005: Presentation Material-PAC

- 3.2.3. In-Process Review (IPR). In-Process Reviews (IPR) will be held twice a year at the Contractor's facilities. The Government reserves the right to cancel any review. The Contractor's progress, management, integrated logistics product support, administrative, assurance of compliance with contract requirements, program status, problem identification and resolutions shall be agenda items. Actual versus expected performance of each area shall be addressed. The Contractor shall prepare presentation materials providing an overview of all agenda items. The Contractor shall ensure that appropriate personnel are available for reviews to address and resolve agenda items.

CDRL A003: Conference Agenda-IPR
CDRL A004: Conference Minutes-IPR
CDRL A005: Presentation Material-IPR

- 3.2.4. Provisioning Guidance Conference (PGC). The Contractor shall host a PGC and furnish provisioning data prior to the provisioning conference. The PGC shall be held in conjunction with the PAC. All key Contractor logistics personnel shall be in attendance and prepared to discuss all provisioning deliverables in detail. During the PGC, the parties will review the requirements for provisioning data including format and medium of delivery and discuss/resolve any unclear provisioning/cataloging related areas. As a result of the PGC, the Government and the Contractor will arrive at a firm understanding of the contractual provisioning requirements. Development of a Provisioning Performance Schedule (PPS) will also be accomplished at this conference.

CDRL A003: Conference Agenda-PGC
CDRL A004: Conference Minutes-PGC
CDRL A005: Presentation Material-PGC

- 3.2.5. Provisioning Conference (PC). The Contractor shall host a PC at the Contractor's facility in accordance with the PPS developed at the PGC. All key Contractor logistics personnel shall be in attendance. During the PC, the parties will conduct a Hardware Breakdown (Top Down Break Down) analysis of the item to be provisioned. Hardware Breakdown is accomplished by sequencing all parts comprising the end item in a lateral and descending "family tree/generation breakdown." This breakdown shall consist of the end item, including all components, listing every assembly, subassembly, and parts which can be disassembled, reassembled/replaced. As a result of the PC, the Government and the Contractor will finalize the recommended spare components/parts list proposed by the Contractor.

CDRL A003: Conference Agenda-PC
CDRL A004: Conference Minutes-PC
CDRL A005: Presentation Material-PC

- 3.2.6. Test Readiness Review (TRR). The Contractor shall host a TRR supporting the First Article Test (FAT). The TRR shall be held at least 30 calendar days prior to the test event. The TRR shall address the following items:

- Test program overview, including the test schedule and traceability of discrete test events to each specification
- Test program staffing, including organizational structure and key Government / Contractor

interfaces

- Preliminary or informal test results
 - a. Identify any preliminary testing that has already been conducted
 - b. Identify any outstanding discrepancies as a result of any preliminary / informal testing previously conducted
- A review of the following:
 - a. Problem Report System. Show that software and hardware problem report systems are defined and implemented
 - b. Test Risks. Summary of the test risk items identified that impact successful completion of FAT to include the points in time that risks are being mitigated and how
 - c. Hardware/Performance Specification Testing:
 - i. Test Procedures completed and baselined. Confirm required revisions have been completed and are verified by the Government
 - ii. Test Facilities and Resources. Present availability of all test facilities and resources for testing within the defined schedule
 - iii. Metrics. Present how Metrics show readiness for testing
 - iv. Test limitations. Identification of all Hardware/Performance Specification test limitations
 - d. Software Testing:
 - i. Software Metrics. Present how Software Metrics show readiness for testing
 - ii. Requirements changes. Any changes to the Software Requirements Specification or Interface Requirements Specification(s) that have been approved
 - iii. Design changes. Any changes to the Software Design Description, or Interface Design Descriptions that have been made since PDR and CDR, and which impact SW testing
 - iv. Test limitations. Identification of all software test limitations
 - v. Software problems. Summary of software problem status including all known discrepancies of the CSCI and test support software

CDRL A003: Conference Agenda-TRR

CDRL A004: Conference Minutes-TRR

CDRL A005: Presentation Material-TRR

- 3.2.7. System Verification Review / Physical Configuration Audit (SVR/PCA). The Contractor shall host an SVR/PCA no later than 30 calendar days after the completion of FAT. The SVR/PCA shall assess the system final product, as evidenced in its production configuration, and determine if it meets the documented functional requirements as well as vendor documentation such as drawings, commercial item descriptions, vendor item descriptions, and source control documents. The SVR/PCA shall establish and verify final product performance and confirm that the manufacturing processes, quality control system, measurement and test equipment, and training are adequately planned, followed, and controlled.

CDRL A003: Conference Agenda-SVR/PCA

CDRL A004: Conference Minutes-SVR/PCA

CDRL A005: Presentation Material-SVR/PCA

- 3.2.8. Production Readiness Review. The Contractor shall host a PRR on a mutually agreed upon date to be determined at the PAC. The PRR shall be held no later than 60 calendar days after completion of the FAT. The PRR shall address each hardware and software configuration item and related maintenance and logistics support. The Contractor shall show and/or demonstrate that evaluations of materials, lead times, tooling, fabrication techniques, assembly methods, test equipment, skills, processes and inspection techniques have been accomplished for each equipment, hardware and software configuration item and related support equipment; show and/or demonstrate that producibility objectives have been achieved; and shall identify all single source, sole source and diminishing source(s). This review will evaluate the

progress, technical adequacy and risks of the system and will assess the technical risk associated with the selected assembly processes. During this review the Contractor shall present their plan to meet the production schedule.

CDRL A003: Conference Agenda-PRR
CDRL A004: Conference Minutes-PRR
CDRL A005: Presentation Material-PRR

3.3. Systems Engineering.

- 3.3.1. Configuration Management (CM). The Contractor shall maintain a CM process for the control of all hardware and software configuration documentation, media and parts representing or comprising the CLRF IC. MIL-HDBK-61A may be used as guidance. The Contractor's CM process shall consist of configuration identification, configuration control, Configuration Status Accounting (CSA) and configuration audits. The Contractor shall notify the Government of any changes which affect the Contractor's established CM process and make configuration data available for review upon request.

CDRL B001: Configuration Management Plan

3.3.2. Engineering Change Proposals (ECP).

- 3.3.2.1. Government Directed Engineering Studies. The Contractor shall perform Government directed engineering studies on increasing the performance, durability, or the service life for the system. The Contractor shall provide a cost estimate to the Contracting Officer's Representative (COR) and copy the PCO prior to conducting any studies. The COR/PCO will provide authorization to conduct the studies.

The contractor shall report contractor labor hours (including subcontractor labor hours) required for performance of services provided under this contract for the CLRF IC via a secure data collection site. Contracted services excluded from reporting are based on Product Service Codes (PSCs). The excluded PSCs are:

- W, Lease/Rental of Equipment;
- X, Lease/Rental of Facilities;
- Y, Construction of Structures and Facilities;
- S, Utilities ONLY;
- V, Freight and Shipping ONLY.

The contractor is required to completely fill in all required data fields using the following web address <https://doncmra.nmci.navy.mil>.

Reporting inputs will be for the labor executed during the period of performance during each Government fiscal year (FY), which runs October 1 through September 30. While inputs may be reported any time during the FY, all data shall be reported no later than October 31 of each calendar year. Contractors may direct questions to the help desk, linked at <https://doncmra.nmci.navy.mil>.

- 3.3.2.2. Contractor Engineering Change Proposals. Contractor Engineering Change Proposals. The Contractor shall maintain configuration control of CLRF IC product baseline throughout the contract period and notify the Government of any changes impacting form, fit, function, interfaces, interchangeability, interoperability and parts management. The Government will use the Activity Guide Tables in MIL-HDBK-61A as guidance for review of Contractor submitted change proposals and notices of revision. The Contractor shall submit Class I ECPs using DD Form 1692. The Contractor shall submit Class II ECPs using DD Form 1692 or Contractor formatted forms containing all required information sufficient to review the ECP. The Government must approve all Class I ECPs and concur with the classification of

all Class II ECPs. A notice of revision will be submitted with each ECP. The Contractor will recommend alternate courses of action for the Government to determine what action is in its best interest. Additionally, notification information shall include enclosures, illustrations and drawings that identify and define the impact on integrated logistic support (ILS) elements, interoperability/ interchangeability, lifecycle costs, maintainability, reliability, and ESOH, (to include identification of any ozone depleting substances) and retrofit information. Sufficient supporting data to evaluate the proposed or requested change, such as engineering drawings, sketches, specifications, manufacturing data sheets, or test results, shall be submitted as supplemental information.

CDRL B00A: Engineering Change Proposal

CDRL B00B: Notice of Revision

- 3.3.3. Configuration Status Accounting (CSA). The Contractor shall establish and maintain a CSA database which represents the configuration of the CLRF IC. All baselines and changes shall be documented in the Contractor's CSA database. The Contractor's CSA database shall permit acceptance of commercial product information; however, if requirements to report data outside of the Contractor's CSA database or format exist, the information may be delivered as a supplement to prevent disruption to their existing system. The Contractor's CSA database shall reconcile any differences between the supplier information and Contractor practices to provide the Government with clear accountability of product information. Additionally, the CSA database shall provide a reliable source of configuration information to support CLRF IC activities, including program management, systems engineering, logistics support and modification/maintenance actions.

CDRL B002: Configuration Status Accounting Information

- 3.3.3.1. Configuration Status Accounting Serialized Tracking. The Government and the Contractor will agree to the list of configuration items. The Contractor shall utilize the CSA database to record the serial numbers for configuration items of the CLRF IC delivered to the Government. The Contractor's CSA database shall include the following data elements:

- Item Unique Identification (IUID)
- Vendor Part Number/ Commercial and Government Entity (CAGE)
- Vendor Serial Number
- Serialized Part Nomenclature
- Date of Report

CDRL B002: Configuration Status Accounting Information

- 3.3.3.2. Configuration Status Accounting Modification Tracking. The Contractor shall utilize the CSA database to record completed field modifications or retrofit actions as a result of approved ECPs. The Contractor shall maintain the information that allows visibility of completed actions to the CLRF IC serial numbers. The Contractor's CSA database shall include the following data elements:

- IUID
- ECP/Modification Item (MI) Number
- Date Installed
- Location
- Ownership

CDRL B002: Configuration Status Accounting Information

- 3.3.4. Radio Frequency Spectrum Compatibility. The Contractor shall submit the data required to complete DD Form 1494 for obtaining an approved frequency for the CLRF IC.

CDRL B003: Spectrum Certification Spectral Characteristics Data

- 3.3.5. Interface Control Documents (ICD). The Contractor shall provide electrical (including message interfaces) and mechanical ICDs for the CLRF IC to enable electrical and mechanical interfaces to external systems.

CDRL B004: Interface Control Document

- 3.3.6. Engineering Drawings.

- 3.3.6.1. Commercial Drawings. The Contractor shall provide commercial drawings to the Government for commercial item(s) approved for use in the design and not covered by Government or nationally recognized industry association specifications and standards. The Contractor shall provide evidence that the part complies with the requirements of the applicable part documentation. Existing test data (such as supplier originated objective evidence of compliance or Government/Industry Data Exchange Program (GIDEP) reports) shall be used to the maximum extent practicable. The Contractor shall provide sufficient information to permit field-level maintenance, modification, and engineering analysis of commercial items. Contractor provided drawings shall contain necessary data to indicate the physical characteristics, location, and/or function of the item. The Contractor shall provide information that, at a minimum, must provide:

- Cataloging actions and assignment of a National Stock Number (NSN)
- Item management coding
- Identification/procurement of initial spares
- Sketches or photographs with brief descriptions of dimensional, material, mechanical, electrical, or other descriptive characteristics

CDRL B005: Commercial Drawings and Associated Lists

- 3.3.6.2. Cable Drawings. The Contractor shall provide a product drawing package for all external cables to allow the Government to build the cables.

CDRL B006: Cable Drawings

- 3.3.7. Quality Management System. The Contractor's quality management system with respect to CLRF IC shall ensure product conformance to the Performance Specification for the CLRF IC and other contractual requirements. The Contractor shall have implemented, documented, and have previously demonstrated the ability to maintain the quality management system to be used on the CLRF IC contract. The Contractor shall make available all quality management documentation related to CLRF IC for the Government to review upon request.

- 3.3.8. Environment, Safety, and Occupational Health (ESOH).

- 3.3.8.1. System Safety. The Contractor shall establish a system safety program to identify environmental, safety, and occupational health hazards and assess and mitigate any associated risks encountered in the test, production, use, and disposal of the system in accordance with MIL-STD-882E, Task 101, Hazard Identification and Mitigation Effort Using the System Safety Methodology.

- 3.3.8.2. Support of Government Safety Boards. The Contractor shall support reviews, certifications, boards, and/or audits performed by or for the Government in accordance with Task 104 of MIL-STD-882E. This includes support of the Laser Safety Review Board (LSRB) and lithium battery certification. LSRB support involves the submission of test assets, safety test data, measurements, laser hazard evaluation results, corrective actions, and/or other system safety data in accordance with MCO 5104.1C as required

by the LSRB Chair prior to the Field User Evaluation (FUE) and prior to Full Rate Production (FRP). The Contractor shall verify that proper labeling is in place as required for the laser classification. Support of lithium battery certification involves the submission of lithium battery data that documents the stability of design and validity of the battery selection, in accordance with NAVSEAINST 9310.1B and NAVSEA S9310-AQ-SAF-010 (2nd revision).

CDRL B007: LSRB Data Package

CDRL B008: Lithium Battery Data Package

- 3.3.8.3. ESOH Working Group (ESOHWG) Support. The Contractor shall provide one participant to support the CLRF IC ESOHWG, in accordance with Task 105 of MIL-STD-882E. Three (3) ESOHWGs will be held throughout the contract period of performance. Participation via teleconference will be available.
- 3.3.8.4. Hazard Tracking and Risk Resolution. The Contractor shall establish and maintain a closed-loop Hazard Tracking System (HTS) in accordance with Task 106 of MIL-STD-882E and provide Government access to hazard tracking data, as requested._
- 3.3.8.5. Hazardous Materials Management Plan (HMMP). The Contractor shall develop and submit a written HMMP in accordance with Task 108 of MIL-STD-882E. The HMMP shall consider all life cycle phases of the CLRF IC acquisition, to include development, manufacturing, testing, operation, sustainment, maintenance, and demilitarization/disposal. Any materials solely associated with manufacturing (i.e., not present in the final, delivered product) shall be identified as such._

The Contractor shall establish and follow a Hazardous Material (HAZMAT) Target List, which at a minimum, shall include the following materials: (1) materials identified as prohibited or controlled in the NAVSEA Prohibited and Controlled Chemicals List (26 Nov 2008) and (2) materials identified on the DoD Materials of Evolving Interest List (MERIT) Action and Watch Lists, as of the date of this SOW. The HAZMAT Target List shall be used as the basis for hazardous materials management efforts, including HAZMAT identification, minimization, approval, and tracking. It shall be understood that some materials listed on the prescribed Government HAZMAT target lists may qualify for automatic exemption as defined by the Government. It is incumbent upon the Contractor to seek guidance regarding such exemptions. Examples include the use of copper, in such items as piping and wiring, and stainless steel, which involves the use of hexavalent chromium during the manufacturing process.

The Contractor shall also provide the associated Material Safety Data Sheets (MSDSs) for all identified HAZMAT identified in the system design, as of the date of HMMP submittal.

CDRL B009: Hazardous Materials Management Plan

- 3.3.8.6. Reserved.
- 3.3.8.7. Safety Assessment Report (SAR). The Contractor shall update their SAR in accordance with Task 301 of MIL-STD-882E. The SAR shall provide a comprehensive evaluation of the status of all safety hazards and their associated mishap risk prior to FUE and prior to FRP. The SAR shall include a summary statement addressing the readiness of CLRF IC to proceed into FUE and FRP.

CDRL B010: Safety Assessment Report Update

- 3.3.9. Testing/Verification.

- 3.3.9.1. First Article Test. The Contractor shall deliver and develop for Government approval FAT procedures to demonstrate the adequacy and suitability of the Contractor's production processes and procedures for achieving all of the requirements in Section 3 of the Performance Specification per the verification methods in Section 4 of the Performance Specification. The Contractor shall conduct FAT in compliance

with the Government approved test procedure. The FAT shall be conducted on systems built from their production line using their production processes. The results of the test shall demonstrate that the manufacturing and production techniques employed do not negatively impact established requirements. The Contractor shall deliver the FAT report at the conclusion of the test. The Government reserves the right to witness any portion of FAT.

CDRL B011: FAT Procedure

CDRL B012: FAT Report

- 3.3.9.2. Field User Evaluation (FUE) Support. The FUE support shall consist of eight (8) hours of operator training based on operator's manuals and a team of two (2) people to address technical issues at the FUE conducted by the Government. The team shall have the capability to troubleshoot and operate the system. The FUE shall be no more than 40 consecutive hours in length (including training) at a Government provided facility located in CONUS. The Contractor shall provide draft training materials and quick reference cards to support no more than 15 students.

CDRL C007: Training Materials

CDRL C010: Quick Reference Card

- 3.3.9.3. Acceptance Testing. The Contractor shall conduct quality conformance inspections and tests on each system (laser range finder) in accordance with the acceptance test procedures. The Contractor shall develop and submit acceptance test procedures for Government review and approval in accordance with the Performance Specification. The Government reserves the right to send a representative(s) to witness production acceptance testing. The Contractor shall notify the Government of any changes to the approved acceptance test procedures. The Contractor shall make available a documented acceptance test report with each system (laser range finder) upon delivery to the Government. The Government reserves the right to review any quality process within the factory.

CDRL B013: Acceptance Test Procedure

CDRL B014: Acceptance Test Report

3.4. Supportability.

- 3.4.1. Reliability Program. The Contractor shall execute a reliability program to ensure the CLRF IC meets the reliability requirements as stated in the Performance Specification. The CLRF IC shall be monitored throughout the period of performance to identify and assess any changes which would impact reliability. The program shall encompass all aspects of reliability with respect to the selection of components, predictions and testing. The Contractor shall develop and maintain a reliability database/model, and shall inform the Government of any part or component which could impact reliability. The Contractor is encouraged to apply MIL-HDBK-470A NOT 2 as guidance. The reliability program shall include, at a minimum, the following:
- 3.4.2. Failure Reporting, Analysis, and Corrective Action System (FRACAS). The Contractor shall develop a closed-loop failure reporting system; procedures for analysis of failures to determine the root cause, and documentation for recording corrective actions taken to include parts replaced and shall be subject to these requirements throughout the period of performance of the contract. In the event where a failed item is returned subject to a Product Quality Deficiency Report (PQDR), traceability of the PQDR shall be integrated into the FRACAS. The Contractor shall notify the Government of any failure impacting schedule, producibility, supportability, and cost of ownership or interface/performance. All failures, critical and non-critical, shall be reported quarterly to the Government for review in the Failure Summary and Analysis Report. If available, a count of laser firings shall be identified for each failure occurrence and included in the FRACAS data structure. Failures identified by inherent Built-in Test (BIT) capabilities shall be reported in the analysis. For all failures not identified by BIT, this analysis shall isolate the single point of failure. In the event of a degraded effect, the Contractor shall identify the operational/inoperable

functional capabilities. Failure indications/symptoms to the operator/maintainer shall be detailed within the report. The Contractor shall assess the failure data for the identification of trends (failures of the same root cause) and identify those trends in the monthly report, per SOW Paragraph 3.4.5.1. The Government reserves the right to conduct a Failure Review Board (FRB) throughout the contracted period of performance. The Contractor shall implement a single FRACAS database that shall be transferred to the Government upon conclusion of the period of performance. The Contractor is encouraged to use MIL-HDBK-470A NOT 2 as guidance.

CDRL C001: Failure Summary and Analysis Report

CDRL C002: FRACAS Database

3.4.3. Reserved.

3.4.4. Maintenance Support Program. The Contractor's maintenance support program with respect to CLRF IC shall identify the maintenance tasks for the CLRF IC. It is strongly recommended GEIA-HB-0007, be used as guidance in selection and tailoring of data elements for logistics product data identified in GEIA-STD-0007. The CLRF IC maintenance support program shall address functional areas to ensure the Marine Corps can organically support the CLRF IC in accordance with the Marine Corps maintenance concept per MARADMIN 159/13. The Contractor shall make available all maintenance support documentation related to CLRF IC for the Government to review upon request.

3.4.5. Contractor Logistics Support. The Contractor shall provide CLS. During the CLS period any maintenance required to be performed above the field level shall be performed by the Contractor. The Contractor shall ship a condition code "A" asset to the Government within 30 calendar days of Contractor receipt of an inoperable CLRF IC. The Contractor shall receive, inspect, conduct test and failure analysis and/or fault isolation for each Line Replaceable Unit (LRU) to determine the specific work required to restore it to an operational condition or recommend condemnation. The Contractor shall provide a cost estimate to the COR and copy the PCO for the repair of the LRU within one week of receipt of the failed LRU. The COR/PCO will provide authorization to repair the LRU or provide disposition instructions if deemed not cost effective to repair.

The Contractor shall be responsible for the procurement actions for all spares and repair parts required to accomplish the work specified in the SOW during the performance period. All parts and material used during the repair process shall meet or exceed the original specifications and technical data requirements of the applicable contracts.

The Contractor shall store all units, repair and spare parts in such a manner as to preclude any damage or loss. The Contractor shall not be required to restore the LRUs to a like new cosmetic condition. Any damage to protective finishes shall be repaired to the extent necessary to provide adequate protection during field usage, corrosion prevention and structural integrity. The Contractor shall replace all damaged markings, identifications, and decals when the markings, identifications, or decals become unreadable. The Contractor shall ensure all repaired, upgraded, or modified LRUs meet or exceed the original performance. Scratches, delaminating or other optical flaws on the optics will be replaced only if it degrades system's performance or may deteriorate systems performance.

The contractor shall report contractor labor hours (including subcontractor labor hours) required for performance of services provided under this contract for the CLRF IC via a secure data collection site. Contracted services excluded from reporting are based on Product Service Codes (PSCs). The excluded PSCs are:

- W, Lease/Rental of Equipment;
- X, Lease/Rental of Facilities;
- Y, Construction of Structures and Facilities;

- S, Utilities ONLY;
- V, Freight and Shipping ONLY.

The contractor is required to completely fill in all required data fields using the following web address <https://doncmra.nmci.navy.mil>.

Reporting inputs will be for the labor executed during the period of performance during each Government fiscal year (FY), which runs October 1 through September 30. While inputs may be reported any time during the FY, all data shall be reported no later than October 31 of each calendar year. Contractors may direct questions to the help desk, linked at <https://doncmra.nmci.navy.mil>.

- 3.4.5.1. Reporting. The Contractor shall provide a monthly report covering the status of all CLRF IC components, repair parts, and principal end items in the Contractor's possession undergoing inspection or repairs.

CDRL C003: Spares Supply and Maintenance Status Report

- 3.4.6. Provisioning.

- 3.4.6.1. Provisioning Plan. The Contractor shall establish, manage, and execute a Logistics Management Information (LMI) program in accordance with GEIA-STD-0007. MIL-HDBK-502A may be used for additional guidance. The LMI program shall be the basis for the integration of the logistics support element, and provide the interface between the engineering and integrated logistics effort.

CDRL C004: Provisioning Plan

- 3.4.6.2. Provisioning Parts List (PPL). The PPL shall contain the end item, component or assembly and all support items which can be disassembled, reassembled, or replaced, and which, when combined, constitute the end item, component or assembly and shall include items such as parts and materials required for the operation and maintenance of the end item. It does not include a breakdown of Government furnished equipment. The PPL shall be delivered in LSA-036, text format.

CDRL C005: Provisioning Parts List

- 3.4.6.3. Parts Management. The Contractor shall maintain a parts management program that will ensure the use of parts that meet contractual requirements, and proactively manage obsolescence. The Contractor shall utilize MIL-STD-3018 as a guide for developing and maintaining a parts management program. The Contractor shall establish procedures and controls to ensure products obtained from suppliers, vendors and subcontractors do not degrade the ability of the CLRF IC to meet the requirements identified in the Performance Specification.

- 3.4.6.4. Pre-Screening. The Contractor shall provide, upon conditional acceptance of the PPL, a copy of the PPL to Defense Logistics Information Service (DLIS) for the purpose of pre-screening. Pre-screening data is used to identify existing NSNs, validate currency of an NSN, validate part numbers and CAGE codes on a PPL, aid in maximum use of known assets, and confirm that accuracy of provisioning data before it is submitted for cataloging.

CDRL C005: Provisioning Parts List

- 3.4.6.5. Recommended Spare Components/Parts. The Contractor shall provide a list of recommended spare components/parts. The list shall include parts selected through the process described in paragraph 3.4.6.4 and listed in the PPL (CDRL C005). The list shall include at a minimum: the nomenclature, part number, NSN, and quantity. The recommended spare components/parts list proposed by the Contractor is expected to be revised appropriately at the Provisioning Conference.

CDRL C006: Recommended Spare Components/Parts List

- 3.4.6.6. Training Shell Parts. The Contractor shall provide all necessary parts for the assembly of CLRF IC training shells. The provided parts shall include all the external components of the CLRF IC assembly with necessary external features (switches, knobs, connectors, battery compartment cover, etc.) sufficient, that when assembled, to give the outward appearance of a CLRF IC. A six inch length of wire shall be attached to each contact of controls and connectors prior to assembly to allow easier integration on partially assembled units. Parts for training shells shall include all mechanical interfaces identified in the Performance Specification for the CLRF IC paragraphs 3.9.1 thru 3.9.8; AN/PSQ-19B/C and PLDR interface cables identified in paragraph 3.11; tripod identified in paragraph 3.17; eyepiece identified in paragraph 3.19.2 (without optics or internal display); and eyecup identified in paragraph 3.22.2. These parts may make use of other than new parts, i.e. parts that do not meet all of the requirements for delivery as a production unit, but will fully meet the needs of integration for training shells. All external optics may be provided as plain pieces of glass. The outer shell shall be removable in order to allow access for integration of a simulator.
- 3.4.7. Item Unique Identification. The Contractor shall implement specific IUID marking, as defined in MIL-STD-130N, DFARS clause 252.211-7003, and DoDI 8320.04. The IUID marking shall be incorporated into existing data plates when possible. Bar coding and the two-dimensional IUID data matrix shall be machine-readable with common optical scanning devices and be accompanied by the corresponding human readable markings when practical. All 2D data matrix shall be permanently affixed and have the ability to withstand and perform within the same environmental conditions as the CLRF IC. Whenever practical, the location of the marking on the item shall ensure its readability during normal operational use. All spare parts, secondary repairable and consumables that exceed \$5,000 when purchased separately shall also be marked with the IUID prior to delivery to the Government.

The Contractor shall also provide specific IUID data plates for the entire system, as defined in MIL-STD-130N, DFARS clause 252.211-7003, and DoDI 8320.04. These data plates shall not be affixed to the system when delivered to the Government and shall contain sequential serial numbers starting at 0001. All IUIDs shall be registered in the IUID Registry maintained by the Defense Logistics Agency Logistics Information Service (DLIS) (see <http://www.acq.osd.mil/dpap/pdi/iuid/>) per DoDI 8320.04, Enclosure 3. The separately shipped IUID plates for the entire system shall be entered upon Government direction.

- 3.4.8. Operator Training. The Contractor shall conduct Instructor & Key Personnel Training (I&KPT) at a Government provided facility located in CONUS. I&KPT shall be conducted by three (3) instructors for no more than 40 consecutive hours. The training materials shall support operation and maintenance for the system. Prior to I&KPT initiation, the Contractor shall meet safety standards which are in accordance with local, state, and federal regulations. The Contractor shall refer to MIL-PRF-29612B for guidance. The Contractor shall ensure that the course content and materials comply with the Systems Approach to Training (SAT). The Contractor's training curriculum shall be developed in a format suitable for projection or computer-based presentation and provided electronically using Microsoft products. The Contractor shall provide a copy of all course material required to teach the course for no more than 30 students.

CDRL C007: Training Materials

- 3.4.9. Technical Manual. The Contractor shall develop and provide an operator's manual. The manual, at a minimum, shall include an introduction, preparation for use and installation, principles of operation, maintenance, and servicing instructions (preventive and corrective), troubleshooting, preparation for shipment, parts list, operation and maintenance illustrations, safety precautions (warnings, cautions, and notes) and information on the functionality of the CLRF IC, its components/accessories, system operation from turn-on to system shut down including adjustments, and operator checks and services. It is desired that the manual be no more than 8.5 x 11 inches.

The manual shall meet the format and content preparation requirements of the Marine Corps Style Guide

SG-IA and MIL-STD- 38784A. Each task shall be presented in detail and in logical step-by-step procedures for the task to be accomplished to include supporting photographs and illustrations. Any artwork shall be sufficient to address the operation and maintenance of the CLRF IC and interfacing hardware. The instructions shall accurately provide all the information needed to keep the equipment operational and shall also list the circumstances in which the operator would enter the system into the repair process. The Contractor shall deliver a signed validation completion certificate, attesting to the adequacy and accuracy of the manual.

CDRL C008: Technical Manual

CDRL C009: Technical Manual Validation Certificate

- 3.4.9.1. Quick Reference Card. The Contractor shall provide a CLRF IC Quick Reference Card that will address the operation of the CLRF IC and interfacing hardware. The quick reference card shall contain instructions on the following: changing system configuration and display settings, performing a compass calibration, performing range finder and target location operations, loading and zeroizing cryptovariable keys, initiating a built-in-test, and data interface setup. The quick reference card shall be waterproof, tear resistant and 4.5x6 inches in size.

CDRL C010: Quick Reference Card

- 3.4.9.2. Copyright Release. The Contractor shall identify copyrighted material, if any, and shall obtain the written approval of the copyright owner. The Contractor shall furnish appropriate copyright release giving the Government permission to reproduce and use copyrighted information. When the Contractor uses a manual which covers a vendor's component(s) or a portion thereof, and the vendor's manual contains copyrighted material, the Contractor shall be responsible for obtaining a copyright release from the vendor and providing the copyright release to the Government.

- 3.4.10. Government Furnished Property (GFP). The Government will provide the Contractor Government Furnished Property per Attachment (6) – CLRF IC GFP of the RFP. The Contractor shall submit a Receipt of Government Material Report upon receipt of the GFP. Any deficiencies shall be reported to the Government via the Government Material Deficiency Report.

CDRL C011: Receipt of Government Material Report

CDRL C012: Government Material Deficiency Report

Section D - Packaging and Marking

PACKAGING & MARKING

D-1 TECHNICAL DATA ITEMS (ALL TECHNICAL DATA CLINS)

All documentation deliverable under this contract shall be packaged and packed so as to preclude damage during transit. These items shall be packaged, packed, and marked in order to meet the requirements of the carrier, and ensure safe delivery at destination.

D-2 SUPPLY ITEMS

All supplies deliverable under this contract shall be prepared for delivery (Preserved, Packed, Palletized, and Marked) in accordance with the best commercial practices of ASTM D3951, so as to preclude damage during transit and ensure safe delivery. If wood is used in the bulk shipment configuration, only wood treated and certified against infestation of nematodes shall be used in accordance with Department of Defense (DoD) 4140.01-M-1 and International Standard for Phytosanitary Measures (ISPM 15). Hazardous materials (HAZMAT) shall be P&P'd in accordance with the requirements of Federal Regulation 49CFR and the FED-STD-313.

D-3 MARKING INSTRUCTIONS

Marking of all deliverables (supplies and technical documentation) shall be in accordance with the contractor's best commercial practices, using the latest version of MIL STD 129 as guidance.

Section E - Inspection and Acceptance

INSPECTION AND ACCEPTANCE TERMS

Supplies/services will be inspected/accepted at:

Section G - Contract Administration Data

CLAUSES INCORPORATED BY REFERENCE

252.201-7000 Contracting Officer's Representative

DEC 1991

CLAUSES INCORPORATED BY FULL TEXT

252.232-7006 WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (MAY 2013)

(a) Definitions. As used in this clause--

Department of Defense Activity Address Code (DoDAAC) is a six position code that uniquely identifies a unit, activity, or organization.

Document type means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

Local processing office (LPO) is the office responsible for payment certification when payment certification is done external to the entitlement system.

(b) Electronic invoicing. The WAWF system is the method to electronically process vendor payment requests and receiving reports, as authorized by DFARS 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(c) WAWF access. To access WAWF, the Contractor shall--

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.acquisition.gov>; and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this Web site.

(d) WAWF training. The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the "Web Based Training" link on the WAWF home page at <https://wawf.eb.mil/>.

(e) WAWF methods of document submission. Document submissions may be via Web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) WAWF payment instructions. The Contractor must use the following information when submitting payment requests and receiving reports in WAWF for this contract/order:

(1) Document type. The Contractor shall use the following document type(s).

Combo

(Contracting Officer: Insert applicable document type(s). Note: If a “Combo” document type is identified but not supportable by the Contractor’s business systems, an “Invoice” (stand-alone) and “Receiving Report” (stand-alone) document type may be used instead.)

(2) Inspection/acceptance location. The Contractor shall select the following inspection/acceptance location(s) in WAWF, as specified by the contracting officer.

See Section E

(3) Document routing. The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

Field Name in WAWF	Data to be entered in WAWF
Pay Official DoDAAC	HQ0337
Issue By DoDAAC	M67854
Admin DoDAAC	S2206A
Inspect By DoDAAC	Per Section E
Ship To Code	Per Section F
Ship From Code	N/A
Mark For Code	Per Section F
Service Approver (DoDAAC)	M67854 Extension PG14
Service Acceptor (DoDAAC)	M67854 Extension PG14
Accept at Other DoDAAC	N/A
LPO DoDAAC	N/A
DCAA Auditor DoDAAC	N/A
Other DoDAAC(s)	N/A

(*Contracting Officer: Insert applicable DoDAAC information or “See schedule” if multiple ship to/acceptance locations apply, or “Not applicable.”)

(4) Payment request and supporting documentation. The Contractor shall ensure a payment request includes appropriate contract line item and subline item descriptions of the work performed or supplies delivered, unit price/cost per unit, fee (if applicable), and all relevant back-up documentation, as defined in DFARS Appendix F, (e.g. timesheets) in support of each payment request.

(5) WAWF email notifications. The Contractor shall enter the email address identified below in the “Send Additional Email Notifications” field of WAWF once a document is submitted in the system.

kathleen.jest@usmc.mil

lynn.frazier@usmc.mil

eliana.york@usmc.mil

(g) WAWF point of contact. (1) The Contractor may obtain clarification regarding invoicing in WAWF from the following contracting activity’s WAWF point of contact.

Bobby Walcott at bobby.walcott@usmc.mil

(2) For technical WAWF help, contact the WAWF helpdesk at 866-618-5988.

(End of clause)

CONTRACT ADMINISTRATION DATA

G-1 POINTS OF CONTACT

(1) Contract Administration Office

Contract administration functions see FAR 42.302 and DFAR 242.302 are assigned to:

Defense Contract Administration Office – Boston
495 Summer Street
Boston, MA 02210-2138
617.753.4006
casboston@dcma.mil

Contract administration functions withheld, additional contract administration functions assigned, or special instructions (see FAR 42.202): NONE

(2) Paying Office

The Paying Office which will make payments is designated as follows:

Defense Finance and Accounting Service (DFAS) – Columbus Center
DFAS-CO/North Entitlement Operations
P.O. Box 182317
Columbus, OH 43218-2266
800/756.4571

(3) Purchasing Office

The Purchasing Office for this procurement is:

Eliana York
Contract Specialist
Commander
Marine Corps Systems Command
Armor & Fire Support Systems
2200 Lester Street
Quantico, VA 22134
703.432.5739
eliana.york@usmc.mil

and/or

Lynn Y. Frazier
Contracting Officer
Commander
Marine Corps Systems Command
Armor & Fire Support Systems
2200 Lester Street

Quantico, VA 22134
703.432.8709
lynn.frazier@usmc.mil

(4) Program Office:

The Contracting Officer Representative (COR) for this procurement is:

Kathleen L. Jest
Logistics Management Specialist
Commander
Marine Corps Systems Command
Armor & Fire Support Systems
2200 Lester Street
Quantico, VA 22134
703.432.5943
kathleen.jest@usmc.mil

G-2 ACCOUNTING CLASSIFICATION REFERENCE NUMBER (ACRN)

The Accounting Classification Reference Number (ACRN) is the double letter prefix to the long line accounting classification citation number contained in the accounting data. It is used as a method for tracking expenditures against individual contract line items. In instances where multiple long line accounting classification numbers are applicable to single line items, each will be prefixed by a separate ACRN. Each line item, subline item, task and subtask listed in the schedule or Statement of Work shall have an accounting classification reference number assigned at the time of award or upon issuance of the task or delivery order.

G-3 POSTING INVOICES IN WAWF

For payment purposes, all invoices posted in Wide Area Workflow shall reflect 'M67854' as the 'Ship To' DODAAC to allow the Project Officer approval access without regard to the actual destination of the equipment.

G-4 PAYMENT INSTRUCTIONS FOR DFAS

In accordance with DFARS 204.7108(c)(7), this contract contains a combination of Firm-Fixed Price (FFP) and Time-And-Materials (T&M) Contract Line Item Numbers (CLINs). Payments shall be made in accordance with DFARS 252.204-0010 Contract-Wide: By Cancellation Date, for both FFP and T&M CLINs.

Section H - Special Contract Requirements

SPECIAL INSTRUCTIONS**H-1 EFFECTS OF ISSUING DELIVERY ORDERS TO PURCHASE COMPLETE CLRF IC UNITS AND/OR SPARES ITEMS ON UNIT PRICES**

If, within 90 days of issuing a delivery order for CLRF IC units and/or components, a subsequent delivery order is issued requiring delivery of additional CLRF IC units and/or components, quantities of like items shall be combined for purposes of determining the final unit prices to the Government for the quantity of items delivered as a result of the subsequent delivery order. The intent of this provision is for the Government to be able to obtain the most favorable unit prices available under the step-ladder pricing for the quantity ordered in the subsequent delivery order as if those items had been required for delivery at the same time as the earlier delivery date was established for like items. The pricing for the items initially required for delivery prior to the subsequent delivery order to purchase like items shall remain unadjusted.

H-2 MINIMUM GOVERNMENT RIGHTS IN SPECIFIED TECHNICAL DATA, SOFTWARE, AND RELATED DELIVERABLES

The parties acknowledge that the contract contains DFARS clauses 252.227-7013 and 252.227-7014. This special provision (H-2) does not affect the operation of the identified DFARS clauses with respect to technical data, software, and any related documentation delivered under this contract which would result in the Government receiving unlimited rights or government purpose rights which mature into unlimited rights after an elapse of time under the terms and conditions specified in each respective contract clause. The parties further acknowledge the Government's CLRF IC requirements include life cycle sustainment needs which may require the Government to provide access to certain CLRF IC technical data and/or software to other Government agencies and third parties.

* Therefore, the contractor agrees to provide the Government with no less than Government Purpose Rights in all technical data, software, and related materials required to be delivered under SOW 3.3.5 and 3.3.6 of this contract in accordance with CDRLs B004-B006.

The terms "government purpose rights" and "detailed process or manufacturing data" have the meanings stated in DFARS contract clause 252.227-7013. The contractor shall account for the operation of this special provision when applying restrictive markings to all affected items of technical data, software, and related documentation delivered under this contract.

H-3 CONTRACTOR'S DUTY TO PRESERVE ADDITIONAL MATERIALS SUBJECT TO DEFERRED ORDERING AND/OR DEFERRED DELIVERY

The contractor shall preserve and retain copies of all technical data, software, and software documentation generated during the performance of this contract, inclusive of all materials required to satisfy its design, product testing, manufacturing, and configuration management responsibilities identified in Section C (the Statement of Work), for a period of time no less than would permit the Government to exercise its rights within the maximum time periods identified in DFARS contract clauses 252.227-7026 and 252.227-7027.

CLAUSES INCORPORATED BY FULL TEXT

52.209-1 QUALIFICATION REQUIREMENTS (FEB 1995)

(a) Definition: "Qualification requirement," as used in this clause, means a Government requirement for testing or other quality assurance demonstration that must be completed before award.

(b) One or more qualification requirements apply to the supplies or services covered by this contract. For those

supplies or services requiring qualification, whether the covered product or service is an end item under this contract or simply a component of an end item, the product, manufacturer, or source must have demonstrated that it meets the standards prescribed for qualification before award of this contract. The product, manufacturer, or source must be qualified at the time of award whether or not the name of the product, manufacturer, or source is actually included on a qualified products list, qualified manufacturers list, or qualified bidders list. Offerors should contact the agency activity designated below to obtain all requirements that they or their products or services, or their subcontractors or their products or services, must satisfy to become qualified and to arrange for an opportunity to demonstrate their abilities to meet the standards specified for qualification.

(Name) _____

(Address) _____

(c) If an offeror, manufacturer, source, product or service covered by a qualification requirement has already met the standards specified, the relevant information noted below should be provided.

Offeror's Name _____

Manufacturer's Name _____

Source's Name _____

Item Name _____

Service Identification _____

Test Number _____ (to the extent known)

(d) Even though a product or service subject to a qualification requirement is not in itself an end item under this contract, the product, manufacturer, or source must nevertheless be qualified at the time of award of this contract. This is necessary whether the Contractor or a subcontractor will ultimately provide the product or service in question. If, after award, the Contracting Officer discovers that an applicable qualification requirement was not in fact met at the time of award, the Contracting Officer may either terminate the contract for default or allow performance to continue if adequate consideration is offered and the action is determined to be otherwise in the Government's best interests.

(e) If an offeror, manufacturer, source, product, or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, the offeror must submit evidence of qualification prior to award of this contract. Unless determined to be in the Government's interests, award of this contract shall not be delayed to permit an offeror to submit evidence of qualification.

(f) Any change in location or ownership of the plant where a previously qualified product or service was manufactured or performed requires reevaluation of the qualification. Similarly, any change in location or ownership of a previously qualified manufacturer or source requires reevaluation of the qualification. The reevaluation must be accomplished before the date of award.

(End of clause)

52.209-3 FIRST ARTICLE APPROVAL--CONTRACTOR TESTING (SEP 1989) - ALTERNATE I (JAN 1997) AND ALTERNATE II (SEP 1989).

(a) The Contractor shall test fourteen (14) unit(s) of Lot/Item Sub-CLIN 0001AA (See Section B.1 for specific quantity details for FAT Units) as specified in this contract. At least thirty (30) calendar days before the beginning of first article tests, the Contractor shall notify the Contracting Officer, in writing, of the time and location of the testing so that the Government may witness the tests.

(b) The Contractor shall submit the first article test report (CDRL B012) within three-hundred and fifty (350) calendar days from the issue date of the delivery order to Commander, Marine Corps Systems Command, Armor and Fire Support Systems (PMM-114), PdM FSS, Attn: Mr. Roberto Gonzalez, 2200 Lester Street, Quantico, VA 22134

marked "FIRST ARTICLE TEST REPORT: Contract No. TBD, Lot/Item No. Sub-CLIN 0001AE" Within forty-four (44) calendar days after the Government receives the test report, the Contracting Officer shall notify the Contractor, in writing, of the conditional approval, approval, or disapproval of the first article. The notice of conditional approval or approval shall not relieve the Contractor from complying with all requirements of the specifications and all other terms and conditions of this contract. A notice of conditional approval shall state any further action required of the Contractor. A notice of disapproval shall cite reasons for the disapproval.

(c) If the first article is disapproved, the Contractor, upon Government request, shall repeat any or all first article tests. After each request for additional tests, the Contractor shall make any necessary changes, modifications, or repairs to the first article or select another first article for testing. All costs related to these tests are to be borne by the Contractor, including any and all costs for additional tests following a disapproval. The Contractor shall then conduct the tests and deliver another report to the Government under the terms and conditions and within the time specified by the Government. The Government shall take action on this report within the time specified in paragraph (b) above. The Government reserves the right to require an equitable adjustment of the contract price for any extension of the delivery schedule, or for any additional costs to the Government related to these tests.

(d) If the Contractor fails to deliver any first article report on time, or the Contracting Officer disapproves any first article, the Contractor shall be deemed to have failed to make delivery within the meaning of the Default clause of this contract.

(e) Unless otherwise provided in the contract, and if the approved first article is not consumed or destroyed in testing, the Contractor may deliver the approved first article as part of the contract quantity if it meets all contract requirements for acceptance. *- build buffer into IMS.*

(f) If the Government does not act within the time specified in paragraph (b) or (c) above, the Contracting Officer shall, upon timely written request from the Contractor, equitably adjust under the changes clause of this contract the delivery or performance dates and/or the contract price, and any other contractual term affected by the delay.

(g) Before first article approval, the Contracting Officer may, by written authorization, authorize the Contractor to acquire specific materials or components or to commence production to the extent essential to meet the delivery schedules. Until first article approval is granted, only costs for the first article and costs incurred under this authorization are allocable to this contract for (1) progress payments, or (2) termination settlements if the contract is terminated for the convenience of the Government. If first article tests reveal deviations from contract requirements, the Contractor shall, at the location designated by the Government, make the required changes or replace all items produced under this contract at no change in the contract price.

(h) The Government may waive the requirement for first article approval test where supplies identical or similar to those called for in the schedule have been previously furnished by the offeror/contractor and have been accepted by the Government. The offeror/contractor may request a waiver.

(i) The Contractor shall produce both the first article and the production quantity at the same facility.

(End of clause)

52.216-19 ORDER LIMITATIONS. (OCT 1995)

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than fifty (50) from any combination of CLINs X005 - X030 for each delivery order, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor:

(1) Any order for a single item in excess of 1,500 each for CLINs X005 - X030 with the exception of CLINs X026 - X029 which are 4,500 each;

(2) Any order for a combination of items in excess of \$18,000,000;

(3) A series of orders from the same ordering office within 30 days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) above.

(d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 15 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

52.216-22 INDEFINITE QUANTITY. (OCT 1995)

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum". The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum".

(c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after twelve (12) months after contract expiration.

(End of clause)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

<http://farsite.hill.af.mil/>

(End of clause)

252.203-7004 Display of Fraud Hotline Poster(s) (DEC 2012)

(a) Definition. United States, as used in this clause, means the 50 States, the District of Columbia, and outlying areas.

(b) Display of fraud hotline poster(s).

(1) The Contractor shall display prominently in common work areas within business segments performing work in the United States under Department of Defense (DoD) contracts DoD hotline posters prepared by the DoD Office of the Inspector General. DoD hotline posters may be obtained via the Internet at http://www.dodig.mil/HOTLINE/hotline_posters.htm.

(2) If the contract is funded, in whole or in part, by Department of Homeland Security (DHS) disaster relief funds, the DHS fraud hotline poster shall be displayed in addition to the DoD fraud hotline poster. If a display of a DHS fraud hotline poster is required, the Contractor may obtain such poster from:

<http://www.dhs.gov/>

(3) Additionally, if the Contractor maintains a company website as a method of providing information to employees, the Contractor shall display an electronic version of the poster(s) at the website.

(c) Subcontracts. The Contractor shall include the substance of this clause, including this paragraph (c), in all subcontracts that exceed \$5 million except when the subcontract--

(1) Is for the acquisition of a commercial item; or

(2) Is performed entirely outside the United States.

(End of clause)

252.211-7003 ITEM UNIQUE IDENTIFICATION AND VALUATION (DEC 2013)

(a) Definitions. As used in this clause'

Automatic identification device means a device, such as a reader or interrogator, used to retrieve data encoded on machine-readable media.

Concatenated unique item identifier means--

(1) For items that are serialized within the enterprise identifier, the linking together of the unique identifier data elements in order of the issuing agency code, enterprise identifier, and unique serial number within the enterprise identifier; or

(2) For items that are serialized within the original part, lot, or batch number, the linking together of the unique identifier data elements in order of the issuing agency code; enterprise identifier; original part, lot, or batch number; and serial number within the original part, lot, or batch number.

Data Matrix means a two-dimensional matrix symbology, which is made up of square or, in some cases, round modules arranged within a perimeter finder pattern and uses the Error Checking and Correction 200 (ECC200) specification found within International Standards Organization (ISO)/International Electrotechnical Commission (IEC) 16022.

Data qualifier means a specified character (or string of characters) that immediately precedes a data field that defines the general category or intended use of the data that follows.

DoD recognized unique identification equivalent means a unique identification method that is in commercial use and has been recognized by DoD. All DoD recognized unique identification equivalents are listed at http://www.acq.osd.mil/dpap/pdi/uid/iuid_equivalents.html.

DoD item unique identification means a system of marking items delivered to DoD with unique item identifiers that have machine-readable data elements to distinguish an item from all other like and unlike items. For items that are serialized within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier and a unique serial number. For items that are serialized within the part, lot, or batch number within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier; the original part, lot, or batch number; and the serial number.

Enterprise means the entity (e.g., a manufacturer or vendor) responsible for assigning unique item identifiers to items.

Enterprise identifier means a code that is uniquely assigned to an enterprise by an issuing agency.

Government's unit acquisition cost means--

(1) For fixed-price type line, subline, or exhibit line items, the unit price identified in the contract at the time of delivery;

(2) For cost-type or undefinitized line, subline, or exhibit line items, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery; and

(3) For items produced under a time-and-materials contract, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery.

Issuing agency means an organization responsible for assigning a globally unique identifier to an enterprise (e.g., Dun & Bradstreet's Data Universal Numbering System (DUNS) Number, GS1 Company Prefix, Allied Committee 135 NATO Commercial and Government Entity (NCAGE)/Commercial and Government Entity (CAGE) Code, or the Coded Representation of the North American Telecommunications Industry Manufacturers, Suppliers, and Related Service Companies (ATIS-0322000) Number), European Health Industry Business Communication Council (EHIBCC) and Health Industry Business Communication Council (HIBCC)), as indicated in the Register of Issuing Agency Codes for ISO/IEC 15459, located at <http://www.nen.nl/web/Normen-ontwikkelen/ISOIEC-15459-Issuing-Agency-Codes.htm>.

Issuing agency code means a code that designates the registration (or controlling) authority for the enterprise identifier.

Item means a single hardware article or a single unit formed by a grouping of subassemblies, components, or constituent parts.

Lot or batch number means an identifying number assigned by the enterprise to a designated group of items, usually referred to as either a lot or a batch, all of which were manufactured under identical conditions.

Machine-readable means an automatic identification technology media, such as bar codes, contact memory buttons, radio frequency identification, or optical memory cards.

Original part number means a combination of numbers or letters assigned by the enterprise at item creation to a class of items with the same form, fit, function, and interface.

Parent item means the item assembly, intermediate component, or subassembly that has an embedded item with a unique item identifier or DoD recognized unique identification equivalent.

Serial number within the enterprise identifier means a combination of numbers, letters, or symbols assigned by the enterprise to an item that provides for the differentiation of that item from any other like and unlike item and is never used again within the enterprise.

Serial number within the part, lot, or batch number means a combination of numbers or letters assigned by the enterprise to an item that provides for the differentiation of that item from any other like item within a part, lot, or batch number assignment.

Serialization within the enterprise identifier means each item produced is assigned a serial number that is unique among all the tangible items produced by the enterprise and is never used again. The enterprise is responsible for ensuring unique serialization within the enterprise identifier.

Serialization within the part, lot, or batch number means each item of a particular part, lot, or batch number is assigned a unique serial number within that part, lot, or batch number assignment. The enterprise is responsible for ensuring unique serialization within the part, lot, or batch number within the enterprise identifier.

Type designation means a combination of letters and numerals assigned by the Government to a major end item, assembly or subassembly, as appropriate, to provide a convenient means of differentiating between items having the same basic name and to indicate modifications and changes thereto.

Unique item identifier means a set of data elements marked on items that is globally unique and unambiguous. The term includes a concatenated unique item identifier or a DoD recognized unique identification equivalent.

Unique item identifier type means a designator to indicate which method of uniquely identifying a part has been used. The current list of accepted unique item identifier types is maintained at http://www.acq.osd.mil/dpap/pdi/uid/uii_types.html.

(b) The Contractor shall deliver all items under a contract line, subline, or exhibit line item.

(c) Unique item identifier. (1) The Contractor shall provide a unique item identifier for the following:

(i) Delivered items for which the Government's unit acquisition cost is \$5,000 or more, except for the following line items:

Contract line, subline, or exhibit
line item No.

Item description

.....

(ii) Items for which the Government's unit acquisition cost is less than \$5,000 that are identified in the Schedule or the following table:

Contract line, subline, or exhibit line item No.	Item description
.....	

(If items are identified in the Schedule, insert "See Schedule" in this table.)

(iii) Subassemblies, components, and parts embedded within delivered items, items with warranty requirements, DoD serially managed reparables and DoD serially managed nonreparables as specified in Attachment Number ----.

(iv) Any item of special tooling or special test equipment as defined in FAR 2.101 that have been designated for preservation and storage for a Major Defense Acquisition Program as specified in Attachment Number ----.

(v) Any item not included in paragraphs (c)(1)(i), (ii), (iii), or

(iv) of this clause for which the contractor creates and marks a unique item identifier for traceability.

(2) The unique item identifier assignment and its component data element combination shall not be duplicated on any other item marked or registered in the DoD Item Unique Identification Registry by the contractor.

(3) The unique item identifier component data elements shall be marked on an item using two dimensional data matrix symbology that complies with ISO/IEC International Standard 16022, Information technology--International symbology specification--Data matrix; ECC200 data matrix specification.

(4) Data syntax and semantics of unique item identifiers. The Contractor shall ensure that--

(i) The data elements (except issuing agency code) of the unique item identifier are encoded within the data matrix symbol that is marked on the item using one of the following three types of data qualifiers, as determined by the Contractor:

(A) Application Identifiers (AIs) (Format Indicator 05 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology--EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(B) Data Identifiers (DIs) (Format Indicator 06 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology--EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(C) Text Element Identifiers (TEIs) (Format Indicator 12 of ISO/IEC International Standard 15434), in accordance with the Air Transport Association Common Support Data Dictionary; and

(ii) The encoded data elements of the unique item identifier conform to the transfer structure, syntax, and coding of messages and data formats specified for Format Indicators 05, 06, and 12 in ISO/IEC International Standard 15434, Information Technology-Transfer Syntax for High Capacity Automatic Data Capture Media.

(5) Unique item identifier.

(i) The Contractor shall--

(A) Determine whether to--

- (1) Serialize within the enterprise identifier;
- (2) Serialize within the part, lot, or batch number; or
- (3) Use a DoD recognized unique identification equivalent (e.g. Vehicle Identification Number); and

(B) Place the data elements of the unique item identifier (enterprise identifier; serial number; DoD recognized unique identification equivalent; and for serialization within the part, lot, or batch number only: Original part, lot, or batch number) on items requiring marking by paragraph (c)(1) of this clause, based on the criteria provided in MIL-STD-130, Identification Marking of U.S. Military Property, latest version;

(C) Label shipments, storage containers and packages that contain uniquely identified items in accordance with the requirements of MIL-STD-129, Military Marking for Shipment and Storage, latest version; and

(D) Verify that the marks on items and labels on shipments, storage containers, and packages are machine readable and conform to the applicable standards. The contractor shall use an automatic identification technology device for this verification that has been programmed to the requirements of Appendix A, MIL-STD-130, latest version.

(ii) The issuing agency code--

(A) Shall not be placed on the item; and

(B) Shall be derived from the data qualifier for the enterprise identifier.

(d) For each item that requires item unique identification under paragraph (c)(1)(i), (ii), or (iv) of this clause or when item unique identification is provided under paragraph (c)(1)(v), in addition to the information provided as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the Contractor shall report at the time of delivery, as part of the Material Inspection and Receiving Report, the following information:

- (1) Unique item identifier.
- (2) Unique item identifier type.
- (3) Issuing agency code (if concatenated unique item identifier is used).
- (4) Enterprise identifier (if concatenated unique item identifier is used).
- (5) Original part number (if there is serialization within the original part number).
- (6) Lot or batch number (if there is serialization within the lot or batch number).
- (7) Current part number (optional and only if not the same as the original part number).
- (8) Current part number effective date (optional and only if current part number is used).
- (9) Serial number (if concatenated unique item identifier is used).
- (10) Government's unit acquisition cost.
- (11) Unit of measure.

(e) For embedded subassemblies, components, and parts that require DoD unique item identification under paragraph (c)(1)(iii) of this clause, the Contractor shall report as part of, or associated with, the Material Inspection and Receiving Report specified elsewhere in this contract, the following information:

- (1) Unique item identifier of the parent item under paragraph (c)(1) of this clause that contains the embedded subassembly, component, or part.
- (2) Unique item identifier of the embedded subassembly, component, or part.
- (3) Unique item identifier type.**
- (4) Issuing agency code (if concatenated unique item identifier is used).**
- (5) Enterprise identifier (if concatenated unique item identifier is used).**
- (6) Original part number (if there is serialization within the original part number).**
- (7) Lot or batch number (if there is serialization within the lot or batch number).**
- (8) Current part number (optional and only if not the same as the original part number).**
- (9) Current part number effective date (optional and only if current part number is used).**
- (10) Serial number (if concatenated unique item identifier is used).**
- (11) Description.
- (12) Type designation of the item as specified in the contract schedule, if any.
- (13) Whether the item is an item of Special Tooling or Special Test Equipment.
- (14) Whether the item is covered by a warranty.

** Once per item.

(e) For embedded subassemblies, components, and parts that require DoD item unique identification under paragraph (c)(1)(iii) of this clause or when item unique identification is provided under paragraph (c)(1)(v), the Contractor shall report as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the following information:

(f) The Contractor shall submit the information required by paragraphs (d) and (e) of this clause as follows:

- (1) End items shall be reported using the receiving report capability in Wide Area WorkFlow (WAWF) in accordance with the clause at 252.232-7003. If WAWF is not required by this contract, and the contractor is not using WAWF, follow the procedures at <http://dodprocurementtoolbox.com/site/uidregistry/>.
- (2) Embedded items shall be reported by one of the following methods--
 - (i) Use of the embedded items capability in WAWF;
 - (ii) Direct data submission to the IUID Registry following the procedures and formats at <http://dodprocurementtoolbox.com/site/uidregistry/>; or

(iii) Via WAWF as a deliverable attachment for exhibit line item number (fill in) ----, Unique Item Identifier Report for Embedded Items, Contract Data Requirements List, DD Form 1423.

(g) Subcontracts. If the Contractor acquires by contract any items for which item unique identification is required in accordance with paragraph (c)(1) of this clause, the Contractor shall include this clause, including this paragraph (g), in the applicable subcontract(s), including subcontracts for commercial items.

(End of clause)

252.216-7006 ORDERING (MAY 2011)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the contract schedule. Such orders may be issued from the date of contract award through sixty (60) months after contract award with the following annual ordering periods:

Base Year Ordering Period (CLINs 0001-0030) shall be 12 months beginning on the effective date of the contract.

Year 1 Ordering Period (CLINs 1001-1031) shall be 12 months following Base Year Ordering Period.

Year 2 Ordering Period (CLINs 2001-2030) shall be 12 months following Year 1 Ordering Period.

Year 3 Ordering Period (CLINs 3001-3030) shall be 12 months following Year 2 Ordering Period.

Year 4 Ordering Period (CLINs 4001-4030) shall be 12 months following Year 3 Ordering Period.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c)(1) If issued electronically, the order is considered "issued" when a copy has been posted to the Electronic Document Access system, and notice has been sent to the Contractor.

(2) If mailed or transmitted by facsimile, a delivery order or task order is considered "issued" when the Government deposits the order in the mail or transmits by facsimile. Mailing includes transmittal by U.S. mail or private delivery services.

(3) Orders may be issued orally only if authorized in the schedule.

(End of Clause)

Good morning (b) (6)

Our proposal should be arriving any minute now, we are on schedule for a 9:00 AM delivery. Please let me know when you have received it.

Have a great weekend and thank you,

(b) (6)

Good morning (b) (6)

Our proposal should be arriving any minute now, we are on schedule for a 9:00 AM delivery. Please let me know when you have received it.

Have a great weekend and thank you,
(b) (6)

(b) (6)

Happy New Year to you as well.

Thursday afternoon is fine, depending on the time as both (b) (6) and I will not be available after 3:30 PM local time. We will both be here Friday morning.

Please let us know which day and approximate time you plan to deliver so we can ensure we are available.

Thank you.

Subject: RE: CLRF IC Request for Final Proposal Revisions - Kollsman

Good Afternoon (b) (6)

Upon our review of the subject request for FPR, we identified the following questions. Therefore, we kindly request the Government review and respond to the following:

1. Drawings: Our understanding of the term "clouded" means that the figure will be annotated with a cloud shape in the upper right hand corner of the drawing with the words "Revised - FPR" within the cloud shape. In MS Word 2010, for example, this cloud shape is created using the Insert->Shapes->Cloud command. Can the Government clarify if our understanding is correct? If our understanding is incorrect, could the Government please provide an example of a "clouded" drawing?

2. Drawings: The Government directed the offers' to annotate revised drawings in the upper right hand corner of the drawing. The Government also directed the offers' to indicate new drawings with the text "New-FPR" in the upper right corner of the drawing page. Would the Government prefer that offers' indicate the individual drawings as new in the same, "clouded" fashion as the revised drawings?

Please advise and thank you,

(b) (6)

We have already taken into account the two week holiday timeframe to allow offerors two weeks to prepare their FPRs based on the ENs provided on 14 Nov and discussed on 1 Dec, therefore, your request for a two week extension is denied.

Hello (b) (6)

In regard to the subject proposal, we kindly request a two (2) week submission extension.

This extension is necessary because our office is on holiday break from Dec 23- Jan 5. This, combined with the time it will take us to complete our final proposal, as well as to complete the internal approval process requires this requested two (2) week extension.

Please advise and thank you,

(b) (6)

Good afternoon (b) (6)

Please see attached file with BET EN-03, for your review. Please note this EN was not included with the earlier ENs due to administrative error, and that the Government is not entering into another round of discussions or providing any opportunity for further discussion of any other issues.

Please acknowledge receipt and provide your response no later than 2 PM Eastern, tomorrow, Friday 12 December 2014, or sooner.

Thank you.

Questions and Answers provided for your information:

Q-1. Is the Government providing an opportunity for the Offeror to submit questions regarding the ENs, such as further details for the description of the issue in question or questions related to the specific request for additional/supplemental information need to clarify or correct the issue?

A-1. Yes, the Government is providing an opportunity for the Offerors to submit questions regarding ENs and Amendment 0004 prior to oral discussions.

Q-2. If the intent is to provide the Government with questions specific to the identified EN issues, will the Government provide answers prior to, or during, the Oral Discussions?

A-2. The Government will provide answers to the Offerors' questions during oral discussions, which will then allow the Offeror to revise its "draft" ENs and submit them as "final" ENs by Wed, 3 Dec 14, 2:00 PM, local time.

Q-3. Please confirm USMC wants the Offeror to use the Excel file for responding to the EN's and not the Word version previously provided.

A-3. EN responses are to be in Word on the actual EN itself. The Excel spreadsheet is for any questions the Offeror may have regarding the ENs and/or amendment. This way, the Government can be prepared to come to discussions knowing what questions the Offeror has and be able to answer them readily.

Subject: RE: Notification Regarding Request for Proposal M67854-14-R-6001 CLRF IC - Kollsman

Dear (b) (6),

Upon review of the CLRF IC Oral Discussions Guidelines Kollsman requests further clarification on the intent of the following guidelines:

Offeror:

- * Provide questions using the Microsoft Excel Spreadsheet provided by the Government by Noon, local time on 24 Nov 14 to (b) (6) and (b) (6)
- * Group questions into the following four (4) categories:
 - o Technical ENs
 - o Past Performance ENs
 - o Business ENs
 - o Amendment 0004

The Government has provided EN-KT-001 thru EN-KT-005 and EN-BET-01 and EN-BET-02. Kollsman will provide draft responses to these ENs no later than 21 November 2014, 2:00 PM local time, or earlier, as requested. The Government will review these responses prior to 1 December 2014 when the Oral Discussions are scheduled.

- * Is the Government providing an opportunity for the Offeror to submit questions regarding the ENs, such as further details for the description of the issue in question or questions related to the specific request for additional/supplemental information need to clarify or correct the issue?
- * If the intent is to provide the Government with questions specific to the identified EN issues, will the Government provide answers prior to, or during, the Oral Discussions?

Any clarification you can provide is appreciated.

Thank you,

Subject: Past Performance Information for Kollsman CLRF IC Proposal- M67854-14-R-6001

Dear (b) (6) ,

Pursuant to CLRF IC RFP, amendment P0003, (M67854-14-R-6001) Kollsman sent three Past Performance Questionnaires to the following individuals:

Program 1: AN/PAS-25 Thermal Laser Spot Imager

Contract: M67854-08-D-6006 / MARCORSYSCOM

Point of Contact:

(b) (6)

2200 Lester Ave.

Quantico, VA 22134

(b) (6)

Program 2: Night Targeting System Depot

Contract: N00383-07-D-001N / Naval Inventory Control Point

Point of Contact:

(b) (6)

700 Robbins Ave.

Philadelphia, PA 19111-5098

(b) (6)

Program 3: Common Laser Rangefinder Integrated Capability Development

Contract: M67854-13-C-6019 / MARCORSYSCOM

Point of Contact:

(b) (6)

105 Tech Pkwy

Stafford, VA 22555

(b) (6)

In addition, Kollsman has identified three key suppliers - (b) (4) In accordance with the RFP, these key suppliers have submitted two Past Performance Questionnaires to the following:

(b) (4)

(b) (4)

(b) (4)

(b) (4)

(b) (4)

(b) (6)

You may hand carry your proposal to the 105 Tech Parkway address, as indicated in the RFP and you can coordinate the time now.

I am in the office from 0630-1500 and (b) (6) is usually in from 0900-1730.

When (b) (6) arrives at the building on Monday, (b) (6) will need to be let in by the personnel at the front desk and they will call one of us to come meet (b) (6)

Please advise to approximate time of arrival and we will ensure availability. Thank you.

Dear (b) (6),

Kollsman, Inc. is preparing to submit a proposal in response to solicitation M67854-14-R-6001.

In support of meeting the past performance criteria for this solicitation, the Common Laser Rangefinder Integrated Concept (CLRF IC) contract M67854-13-6019 has been identified for supporting past performance.

Could you please see the attached questionnaire and respond directly to the USMC by 2:00 PM EST 26 August 2014 as delineated in the attached?

Thank you,

(b) (6)

Oh geez...just call me crazy. NO, we did NOT receive your proposal. I have way too many thoughts running through my head and confused you w/something else. That's what happens when you have similar work ongoing simultaneously. 'Didn't mean to scare you!

Thanks for the heads up about delivery tomorrow morning. :)

You received the proposal?

Yes -6 without the windchill, I don't ever remember temps like this!

All,

Final Proposal Revisions (FPR) instructions are hereby revised as follows regarding the "CLEAN" Copy.

"Text: (Clean) Submit one (1) "clean" copy for verification of page limitations. Compliance with page count requirements identified in Enclosure (1) to this memo will be verified using this format, which must also conform to the text, font, and binding and labeling instructions found at RFP Section L-4.3. Material submitted in excess of the page limits or non-compliance with printing parameters will be removed from both the "clean" and "line-in/line-out" copies and that material will not be considered in the evaluation and source selection decision. The "clean" version will be treated as the FPR original."

Hello (b) (6)

In regard to the subject proposal, we kindly request a two (2) week submission extension.

This extension is necessary because our office is on holiday break from Dec 23- Jan 5. This, combined with the time it will take us to complete our final proposal, as well as to complete the internal approval process requires this requested two (2) week extension.

Please advise and thank you,

(b) (6)

Good afternoon (b) (6)

Please see attached file with BET EN-03, for your review. Please note this EN was not included with the earlier ENs due to administrative error, and that the Government is not entering into another round of discussions or providing any opportunity for further discussion of any other issues.

Please acknowledge receipt and provide your response no later than 2 PM Eastern, tomorrow, Friday 12 December 2014, or sooner.

Thank you.

Subject: CLRF IC RFP M67854-14-R-6001 - Patent Indemnity Clause

Categories: Red Category

All,

Please see the below Question and Answer regarding CLRF IC:

QUESTION -- In order to assess the legal and financial risks associated with acceptance of FAR 52.227-3 Patent Indemnity on this US Government contract, [we] request the US Government to disclose the relevant information if there is any reason to believe that patent infringement claims related to the CLRF-IC technology or its use would be likely. If the US Government has no reason to believe that patent infringement claims would be likely, [we] request written confirmation stating the US Government has no information regarding likely claims of patent infringement and the CLRF-IC technology.

ANSWER -- The Marine Corps is not aware of whether or not there is any risk of patent infringement associated with your proposal and this risk is not being evaluated under the stated evaluation criteria. The Marine Corps' position is that each offeror possesses superior knowledge about whether their proposed technical solution may require reliance on a third party's patented invention and therefore, the patent indemnity clause was included in this solicitation to allocate this risk to the offerors.

Hello (b) (6)

Kollsman withdraws its previous draft responses to the CLRF IC ENs and re-submits the attached draft responses.

We believed that the Government wished to receive the revised CPSCM with the draft response submittal. The CPSCM has been removed and we have updated our response to EN-KT_003 to inform the Government that we will submit the CPSCM with the final submittal.

Questions and Answers provided for your information:

Q-1. Is the Government providing an opportunity for the Offeror to submit questions regarding the ENs, such as further details for the description of the issue in question or questions related to the specific request for additional/supplemental information need to clarify or correct the issue?

A-1. Yes, the Government is providing an opportunity for the Offerors to submit questions regarding ENs and Amendment 0004 prior to oral discussions.

Q-2. If the intent is to provide the Government with questions specific to the identified EN issues, will the Government provide answers prior to, or during, the Oral Discussions?

A-2. The Government will provide answers to the Offerors' questions during oral discussions, which will then allow the Offeror to revise its "draft" ENs and submit them as "final" ENs by Wed, 3 Dec 14, 2:00 PM, local time.

Q-3. Please confirm USMC wants the Offeror to use the Excel file for responding to the EN's and not the Word version previously provided.

A-3. EN responses are to be in Word on the actual EN itself. The Excel spreadsheet is for any questions the Offeror may have regarding the ENs and/or amendment. This way, the Government can be prepared to come to discussions knowing what questions the Offeror has and be able to answer them readily.

Subject: RE: Notification Regarding Request for Proposal M67854-14-R-6001 CLRF IC - Kollsman

Dear (b) (6),

Upon review of the CLRF IC Oral Discussions Guidelines Kollsman requests further clarification on the intent of the following guidelines:

Offeror:

- * Provide questions using the Microsoft Excel Spreadsheet provided by the Government by Noon, local time on 24 Nov 14 to (b) (6).
- * Group questions into the following four (4) categories:
 - o Technical ENs
 - o Past Performance ENs
 - o Business ENs
 - o Amendment 0004

The Government has provided EN-KT-001 thru EN-KT-005 and EN-BET-01 and EN-BET-02. Kollsman will provide draft responses to these ENs no later than 21 November 2014, 2:00 PM local time, or earlier, as requested. The Government will review these responses prior to 1 December 2014 when the Oral Discussions are scheduled.

* Is the Government providing an opportunity for the Offeror to submit questions regarding the ENs, such as further details for the description of the issue in question or questions related to the specific request for additional/supplemental information need to clarify or correct the issue?

* If the intent is to provide the Government with questions specific to the identified EN issues, will the Government provide answers prior to, or during, the Oral Discussions?

Any clarification you can provide is appreciated.

Thank you,

(b) (6)

Subject: Past Performance Information for Kollsman CLRF IC Proposal- M67854-14-R-6001

Dear (b) (6)

Pursuant to CLRF IC RFP, amendment P0003, (M67854-14-R-6001) Kollsman sent three Past Performance Questionnaires to the following individuals:

Program 1: AN/PAS-25 Thermal Laser Spot Imager

Contract: M67854-08-D-6006 / MARCORSYSCOM

Point of Contact:

(b) (6)

2200 Lester Ave.

Quantico, VA 22134

(b) (6)

(b) (6)

Program 2: Night Targeting System Depot

Contract: N00383-07-D-001N / Naval Inventory Control Point

Point of Contact:

(b) (6)

700 Robbins Ave.

Philadelphia, PA 19111-5098

(b) (6)

(b) (6)

Program 3: Common Laser Rangefinder Integrated Capability Development

Contract: M67854-13-C-6019 / MARCORSYSCOM

Point of Contact:

(b) (6)

105 Tech Pkwy

Stafford, VA 22555

(b) (6)

(b) (6)

In addition, Kollsman has identified three key suppliers - (b) (4) In accordance with the RFP, these key suppliers have submitted two Past Performance Questionnaires to the following:

(b) (6)

You may hand carry your proposal to the 105 Tech Parkway address, as indicated in the RFP and you can coordinate the time now.

I am in the office from 0630-1500 and (b) (6) is usually in from 0900-1730.

When (b) (6) arrives at the building on Monday, he will need to be let in by the personnel at the front desk and they will call one of us to come meet him.

Please advise to approximate time of arrival and we will ensure availability. Thank you.

Hello (b) (6)

It has been brought to my attention that we overlooked asking the below question in our submittal of questions for the CLRF IC solicitation, therefore we are asking for the Government's acceptance and review of this question since the answers have not yet been released to FBO:

Section E - Inspection and Acceptance, identifies that the majority of the CLINs, particularly X007 - X030, will be Inspected and Accepted at Origin by the Government. Typically inspection / acceptance at origin involves DCMA to perform the inspection and acceptance. Is it the Government's intention to use DCMA to perform inspection and acceptance for this contract? Or is it the government's intention to perform acceptance through WAWF?

Thank you,

Hello (b) (6),

Kollsman, Inc. is preparing to submit a proposal in response to solicitation M67854-14-R-6001.

In support of meeting the past performance criteria for this solicitation, the Common Laser Rangefinder Integrated Capability (CLRF IC) contract M67854-13-6019 has been identified for supporting past performance.

Could you please see the attached questionnaire and respond directly to the USMC by 2:00 PM EST 26 August 2014 as delineated in the attached?

Thank you,

Please remember to do the following as required by L-4.8 Volume 2 - Past Performance

Offerors shall complete Part I of the Past Performance Questionnaire (Attachment (8) - Section J) and send it to the assessors (Government or Commercial personnel that had experience with the Offeror on a previous, relevant contract). Offerors shall request the assessors complete Part II of the questionnaire and ask they email it by the closing date of the solicitation, directly to (b) (6) with copy to (b) (6). Any Offeror that is unable to provide three (3) relevant contracts for past performance evaluation may submit a lesser number.

Subject: CLRF IC - Revision to Request for Final Proposal Revisions Instructions - Kollsman

All,

Final Proposal Revisions (FPR) instructions are hereby revised as follows regarding the "CLEAN" Copy.

"Text: (Clean) Submit one (1) "clean" copy for verification of page limitations. Compliance with page count requirements identified in Enclosure (1) to this memo will be verified using this format, which must also conform to the text, font, and binding and labeling instructions found at RFP Section L-4.3. Material submitted in excess of the page limits or non-compliance with printing parameters will be removed from both the "clean" and "line-in/line-out" copies and that material will not be considered in the evaluation and source selection decision. The "clean" version will be treated as the FPR original."

Importance: High

Good afternoon (b) (6)

Please see attached file with BET EN-03, for your review. Please note this EN was not included with the earlier ENs due to administrative error, and that the Government is not entering into another round of discussions or providing any opportunity for further discussion of any other issues.

Please acknowledge receipt and provide your response no later than 2 PM Eastern, tomorrow, Friday 12 December 2014, or sooner.

Thank you.

Good Afternoon (b) (6)

I have successfully downloaded the files from SAFE.

The MP3 (audio) seems to play all right (though I did not listen to the entire conversation).
The PDF notes downloaded without problem.

We will review and provide our concurrence by COB Mon, 15 December 2014.

(b) (6)

Receipt confirmed.

I apologize for the miscommunication. I had not realized the EN requested re-submission of the CPSCM so this was my error.

At this time, we do not wish to receive the CPSCM; it may be submitted in the Final Proposal Revision, when requested.

(b) (6)

P.S. (b) (6) wants me to ensure you realize this was, technically, (b) (6) error by requesting this document. :)

Please remember to do the following as required by L-4.8 Volume 2 - Past Performance

Offerors shall complete Part I of the Past Performance Questionnaire (Attachment (8) - Section J) and send it to the assessors (Government or Commercial personnel that had experience with the Offeror on a previous, relevant contract). Offerors shall request the assessors complete Part II of the questionnaire and ask they email it by the closing date of the solicitation, directly to (b) (6) with copy to (b) (6). Any Offeror that is unable to provide three (3) relevant contracts for past performance evaluation may submit a lesser number.

>>> Instructions - Kollsman

>>>

>>> All,

>>>

>>> Final Proposal Revisions (FPR) instructions are hereby revised as follows regarding the "CLEAN" Copy.

>>>

>>> "Text: (Clean) Submit one (1) "clean" copy for verification of page limitations. Compliance with page count requirements identified in Enclosure (1) to this memo will be verified using this format, which must also conform to the text, font, and binding and labeling instructions found at RFP Section L-4.3. Material submitted in excess of the page limits or non-compliance with printing parameters will be removed from both the "clean" and "line-in/line-out" copies and that material will not be considered in the evaluation and source selection decision. The "clean" version will be treated as the FPR original."

Good Afternoon (b) (6)

I have successfully downloaded the files from SAFE.

The MP3 (audio) seems to play all right (though I did not listen to the entire conversation).
The PDF notes downloaded without problem.

We will review and provide our concurrence by COB Mon, 15 December 2014.

Regards,

(b) (6)

2. Products and Services List

The following principal products and/or services will be subcontracted under this contract: (FAR 52.219-9 (d) (3) (i-vi)). For detailed supplier / NAIC's info specific to this offer please see Attachment B, page 10.

<u>Products Services</u>	<u>Supplier Size</u>
CABLES	SDB / WOSB / HUBZone
GASKETS	SDB / WOSB
GPS RECEIVER	L
HARDWARE	S
LRF ASSEMBLY	L
MACHINING	SDB / WOSB / VOSB / SDVOSB
PCB	VOSB / WOSB
SENSORS	L

3. Methods Used to Develop Subcontracting Plan Goals

Including Available Source Information (FAR 52.219-9 (d) (4))

The goals were developed by analyzing the Bill of Material in order to identify SB, SDB, WOSB, HUBZ, VOSB, SDVOSB and/or and HBCU's/MI subcontractors and suppliers. SB, SDB, WOSB, HUBZ, VOSB, SDVOSB and HBCUs/MI concerns are constantly being sought utilizing available source lists and, the services of DCMA, Small Business Ctr., East Div., the SBA, PTACS, local small business, SDB, WOSB, HUBZ, SDVOSB or HBCU's/MI associations and other Internet web-sites and publications such as:

Other regional, state and local minority business listings.
Listing of HBCUs and MIs published by the Department of Education

4. **Equitable Opportunity to Compete Statement**

Description of Efforts to Assure SB, SDB, WOSB, HUBZ, VOSB, SDVOSB AND HBCU's/MI Business concerns have an equitable Opportunity to compete. (FAR 52.219-9 (d) (5))

Company Policy Statement:

KOLLSMAN, INC. Procurement Policy, AS9100 7-4-1-SP-03, Small Business Subcontracting Program Section 2.1 and the Small Business Subcontracting Plan, Attachment A, details Kollsman's efforts.

Please note that KOLLSMAN, INC. has made concerted efforts to include opportunities for SB, SDB, WOSB, HUBZ, VOSB, SDVOSB and HBCU's/MI concerns. This has resulted in meeting DCMA 640 requirements as reviewed by DCMA, Small Business Ctr., East Division and the SBA.

On file are DCMA 640 Reviews and procurement policy, AS9100 7-4-1-SP-03 available on request.

5. **Management Interest and Involvement**

The SBLO provides statistical data on SB, SDB, WOSB, HUBZ, VOSB, SDVOSB and HBCU's /MI procurement activities to the Senior Vice President (VP) Operations.

6. **Personnel Motivation and Training**

Purchasing personnel are frequently reminded of SB, SDB, WOSB, HUBZ, VOSB, SDVOSB concerns and HBCU's/MI obligations. Since 1978, Small Business Administration, (SBA) and DCMA, seminars and trade fairs sponsored by various US Senators and Congressmen have been attended by Purchasing personnel of this organization.

7. **Special Assistance Provided**

Special assistance will be given to SB, SDB, WOSB, VOSB, SDVOSB concerns and HBCU/MI's by arranging solicitation time for preparation of bid quantities, specifications, and delivery schedules to facilitate the participation by such firms.

Note: Example: Kollsman has expended time, money, and resources to develop S & K Electronics, an Indian Reservation and HUBZone SDB source in Montana for cable harness work.

The foregoing is also used in accordance with FAR 52.219-9 (d) (11) (v) (B) in monitoring performance to evaluate compliance with the program requirements.

8. Make or Buy Considerations

(FAR 52.219-9 (e) (2))

KOLLSMAN, INC. AS9100 7-5-SP-02, Make or Buy Decision Process contains Kollsman make/buy requirements that is available on request.

Purchasing gives advice and counsel pursuant to any items that are being considered for make/buy considerations. This assures adequate and timely consideration for SB, SDB, WOSB, HUBZ, VOB, SDVOSB concerns and HBCU's/MIs.

9. Outreach Records**9.1 Counseling/Discussion Activities or Subcontracting Opportunities**

KOLLSMAN, INC. records of outreach efforts to contact (A) trade associations, (B) business development organizations and (C) conferences and trade fairs to locate SB, SDB, WOSB, HUBZ, VOSB, SDVOSB concerns and HBCU's/MI sources are maintained by the Small Business Liaison Officer.

9.2 Institute for Supply Management (ISM)

Is a member of the Institute for Supply Management. This organization provides an opportunity for corporate representatives to exchange valuable information concerning programs as well as potential sources. In addition, this group strives to keep members abreast of relevant current and proposed legislation.

10. Individual Subcontract Report (ISR) and Summary Subcontract Report (SSR)

(Formerly SF294 and SF295)

The clauses entitled "Utilization of Small Business Concerns" will be included in all subcontracts which offer further subcontracting opportunities. Also, all subcontracts in excess of \$650,000 awarded by KOLLSMAN, INC. to large U.S. business concerns will be required to include a subcontracting plan similar to this one, to be accepted by the administrator of this plan prior to award. (FAR52.219-9 (d) (9))

11. Periodic Reports

(FAR 52.219-9 (d) (10) (iii))

KOLLSMAN, INC. agrees to submit periodic reports and cooperate in any studies or surveys required by the contracting agency or the SBA in order to determine the extent of compliance with the subcontracting plan submitted to KOLLSMAN, INC. by other large U.S. business concerns who have been awarded KOLLSMAN, INC. subcontracts in excess of \$650,000.

12. Utilization of Small Business Concerns Clause

Submission of Forms ISR (Formerly SF294) and SSR (Formerly SF295) as required by FAR 52.219-9.

Kollsman's ERP Oracle System provides Purchasing statistics that enables reporting on a Subcontract basis (Electronic Form ISR), and on a contracting agency basis (Electronic Form SSR).

In accordance with FAR 52.219-9 (d) (10) (iii), these reports are required from KOLLSMAN, INC. and U.S. large business subcontractors receiving KOLLSMAN, INC. awards of \$650,000 or more.

Further, in accordance with FAR 52-219-9 (d) (10) (iv), KOLLSMAN, INC. will ensure that its U.S. subcontractors agree to submit Standard Electronic Forms ISR and SSR, as required.

13. Records

Source lists developed by agencies, organizations, and other sources cited in Section 2 are on-line and accessible on the Internet in each buyer's office. In addition, the administrator of this plan handles all referrals and queries about potential subcontracting opportunities resulting from this contract.

Small Business Checklists for awards of \$150,000 and over in accordance with FAR 52.219-9 (d) (11).

Records of internal activities used in guiding and encouraging buyers to support SB, SDB, WOSB, HUBZ, VOSB, SDVOSB and HBCU's/MI concerns; e.g., workshops, seminars, training programs, motivation sessions, etc.

Records to support actual award data reported on ISR's and SSR's will include name, address, and business size of each subcontractor.

Attachment A (SBLO Detailed Information) January 2012

Specific duties of the Small Business Liaison Officer of KOLLSMAN, INC., under the direction of the Supply Chain Director, are as follows:

Maintain a program designed to locate capable small business (SB), Small Disadvantaged Business (SDB), Veteran-Owned Small Business VOSB, Service-Disabled Veteran-Owned Small Business (SDVOSB), HUBZone Small Business (HUBZ), Women-Owned Small Business (WOSB) concerns and HBCU's/MI sources for current and future procurements.

Assist the Proposal and Program Managers by reviewing each request for proposal or contractual modification in excess of \$650,000 for possible breakout of items suitable for acquisition SB, SDVOSB (including VOSB, HUBZ and WOSB or HBCU's/MI concerns).

Review all major Subcontracts, (those in excess of \$650,000) where the Subcontractor is not a small business, to determine if SB, SDB, WOSB, HUBZ, VOSB, SDVOSB, and HBCU's/MI concerns program should be required of that subcontractor.

Review SB, SDB, WOSB, HUBZ, VOSB, SDVOSB, and HBCU's/MI Subcontracting Plan required of major subcontractors prior to subcontract award.

Provide assistance to any small business entity, upon request, in interpreting the solicitation and the accompanying technical requirements.
